

To merge or not to merge – what are your options?

**Want to know more about mergers?
Are they the right answer for you?**

Form Follows Function – board strategy sessions

Alistair McIntosh and Ian Parker will take your board through:

- The HCA requirements on VfM and how merger fits in
- What works and what doesn't - our research on the pros and cons of merger in housing and other industries
- The indicative financial impact of merger for you and your capacity to build homes or regenerate estates
- A discussion based around the questions in our form follows function toolkit amended to your circumstances
- Other options available to you eg stock swaps, shared services.

“By the end of it the board had a much clearer idea of what we could do if we joined the neighbouring association or a national one set against working on our own. It was certainly thought provoking.”

Chief executive of a housing association pilot
