

Programme

Building strategies – understanding regional housing markets – the North West

Thursday 22 March 2018 | Manchester

HQN is teaming up with property intelligence specialists Hometrack for a series of events to help housing associations and local authorities build successful development strategies. The Hometrack team will provide the lowdown on where the UK housing market is headed over the next 12 months and beyond – nationally, regionally and locally. Every event will be tailored specifically to the region in which it is taking place with Hometrack tapping into its extensive data bank to provide expert insight and guidance.
