All on board: delivering good governance in 2019

Wednesday 3 April 2019, Birmingham

Good governance isn't easy – in fact, it's never been more challenging. Whether you are Board member needing to know where to focus your attention, or an executive team wondering how best to meet the needs – and expectations – of your Board, you need to be on top of your brief.

That's why we've designed a new toolkit and series of workshops for 2019 to help you through the maze of obligations and best practice – to help you avoid the pitfalls and reap the benefits of good governance.
