

Programme

Water risk assessments for domestic properties – does it have to be complicated?

Wednesday 17 April 2019 | Birmingham Conference and Events Centre

Come and join us at this interactive workshop that will help you to understand what your legal duties are in respect to Legionella in domestic premises and how you can comply by implementing simple, proportionate and appropriate control measures to ensure the risk remains low.

The day will be led by **Chris Brown** who is an expert in his field, having over 30 years' experience within the water hygiene industry.
