

Programme

The housing law review of the year

Tuesday 10 December 2019 | Manchester

Keep up to speed with the latest changes to housing policy, legislation and case law with our popular housing law workshops in association with Trowers and Hamblins.

With political events moving at a rapid pace, key developments in the world of housing may have been missed. These events will allow delegates to catch their breath and take stock of everything that has happened in 2019 and the implications for the future.
