

Programme

Managing compliance

Tuesday 04 February 2020 | London

Join us for an informative day crammed full of useful information relating to key landlord safety compliance areas, such as gas and other heating sources, asbestos management, water hygiene, fixed electrical inspections and passenger and other lifts and lifting equipment.

Find out your responsibilities in terms of compliance, what you can do to ensure you are meeting the requirements of legislation as well as keeping your tenants safe in their homes.
