Nothing about us without us: co-production and resident involvement

Tuesday 10 March 2020 | Bristol

Specially designed practical workshops for the HQN Residents' Network for everyone with an interest in co-production and tenant involvement.

The workshop will be delivered by Noreen Blanluet, Director at the Co-production Network for Wales: an independent organisation working to transform public services through co-production and involvement. The Network's primary focus is to grow good practice, and foster opportunities for learning and sharing across sectors.

The day will be rich with models and illustrative examples both from housing and other sectors with plenty of opportunities for Q&As.
