

The Leasehold Network: better member benefits for 2018

We've been refreshing the member benefits for the Leasehold Network. We're making a few changes we think you'll like.

New for 2018: Leasehold Legal

- This new technical monthly update focuses on the latest legal cases
- Coming with commentary by legal author John Murray of Ward Hadaway, it will complement our Leasehold Technical Talk monthly update.

Refreshed for 2018: main benchmarking exercise

- We're going to focus more on performance in our main exercise for 2018. Some new categories and comparisons are planned
- Watch this space for more information soon.

Refreshed for 2018: satisfaction benchmarking

- Satisfaction benchmarking will become a smaller off-shoot of the main exercise, held later in the year
- Again, watch this space for more details.

New timelines in 2018: best practice workshops

- We're moving the best practice workshops from summer (June) and winter (December) to April and October, so that we enable more people to come along by avoiding the early holiday period and Christmas run-in
- The regional sessions will continue, as before
- As always, get in touch if there's any issue you want to debate at your regional session, or if you'd like to host.

New datelines for 2018: Leasehold Summit 2018

- The Summit event – to which Leasehold Network members get discounted rates, will return to June this year (from Autumn). There will be a southern Summit in London on Tuesday 19 June (tbc), and a northern Summit in Leeds too this year, on Thursday 28 June (tbc)
- More details soon.

For any further information, just get in touch on the usual contacts. We'll be happy to help.
