

Programme

Gas safety masterclass – the ‘new normal’ for compliance and emerging best practice Tuesday 9 August 2022

Get the lowdown on the latest gas safety legislation and best practice at our popular masterclass as we begin to emerge from lockdown.

The law hasn't been on lockdown – the fact that landlords have certain legal obligations has not changed.

But staying compliant relies on gaining access to tenants' homes. Covid-19 will continue to make this harder.

HQN is delighted to bring you a live virtual masterclass on gas safety, inspections and gas related issues.

10:30 Welcome and introductions
Kevin Bentley, HQN
